SYSTEM FOR ORDERING MANUFACTURE OF CROSS-STITCH ON INTERNET

Representative drawing

(57) Abstract:

PURPOSE: A system for ordering manufacture of a cross-stitch on the internet is provided to be offered and a cross-stitch manufacturer to manufacture variable cross-stitch goods by connecting a cross-stitch customer to a cross-stitch manufacturer and a delivery man.

CONSTITUTION: An order for manufacturing cross-stitch goods is inputted from a cross-stitch customer(1). The order is requested to a cross-stitch manufacturer(2). If a cross-stitch manufacturer is selected, a cross-stitch manufacturing and ordering system selects a design manufacturer and the design manufacturer draws a design(3). The design manufacturer sends a design drawn through the internet to the cross-stitch manufacturer and the cross-stitch manufacturing and ordering system confirms receiving of the design to the cross-stitch manufacturer(4). The cross-stitch manufacturing and ordering system confirms the manufacturing of cross-stitch from the cross-stitch manufacturer, the delivery for the manufactured cross-stitch is requested to a delivery man(5). The delivery man receives the cross-stitch from the cross-stitch manufacturer(6). A customer receives the cross-stitch, and the cross-stitch manufacturing and ordering system confirms the receipt of the cross-stitch(7).
